W. C. T. U. Notes.

Miss Reta Davis, of Winchester, State Secretary W. C. T. U. Parlor Meetings will attend the convention, commencing the 23rd.

One of the broadest fields for good in the W. C. T. U. is their department for prison work, which will be thoroughly discussed in the coming convention.

The President of the local W. C. T. U. requests a full attendance next Saturday afternoon as it will be the last meeting before the convention.

Mrs. T. F. Rogers, President of our local W. C. T. U. will entertain the State President, Mrs. Frances E. Beauchamp, of Lexington during the convention.

All the ladies of our town who will kindly assist in entertaining delegates to the W. C. T. U. convention will give their names to Mrs. Priest, Recording Secretary of local union.

The Mother's Meeting, which is quite a feature of the W. C. T. U. work will be conducted during the convention by the State Secretary, Miss Kate Klein, of Winchester.

The names of the bright women delegates to W. C. T. U. Convention are beginning to arrive from Winchester, Augusta, Williamstown and many other places. A full list will be given later.

Last week the ADVOCATE Publishing Company sent out from its job office one thousand copies of the Minutes of Christian Women's Board of Missions and the Kentucky Christian Missionary Convention, which was held at Georgetown. They made a book of sixty-nine pages.

The Gazette Feels Called Upon to
Speak out and She Does.

It is not the "Sound Money Democrats" that the Gazette cares a fig for when it asks what they think when the "Advocate says 'that fellow,'" but it is Breckinridge's heart goes out for. What a wonderful change has come over our dear brother "Jonnie." The following paragraph in the Gazette editorial columns furnishes the explanation:

"Judge George Denny has issued a card withdrawing from the race for Congress in the Seventh District. As the Republicans have no candidate the election of Col. Breckinridge is almost a certainty."

The Gazette would be for "that fellow?" Aye? Well, Brother Jonnie, you have got him. Strange bedfellow, indeed. He is a good one of the kind and it is possible you can use him; we can't.

Public Speaking.

Hon. John H. Flood, Jr., of Lexington, will address the citizens of Montgomery county in the interest of Bryan, Sewall and Fitzpatrick, Monday, October 26th, at 2 o'clock p. m. Mr. Flood is thoroughly posted on the money question and should have a large crowd.

There is indeed a treat in store for those of our citizens who enjoy both oratory and a profound argument, at one of the ablest and most eloquent men of the nation, Hon. William J. Stone, Governor of Missouri, will address the people of this county in behalf of Bryan and true Democracy at Mt. Sterling, Ky., October 19th (County Court-day). Governor Stone is the gentleman who made the great speech in New York City notifying William Jennings Bryan of his nomination for President by the Democratic convention.

A JUST JUDGE.

Who Regards Right and Justice
Above Party.

Last week Judge H. Clay Howard, of the Bourbon County Court, rendered a decision in the case of Dutton & Co. against A. T. Forsythe, which will be regarded as a just precedent and an example for other Judges for such appointments.

Judge Howard had appointed Forsythe an election officer, believing at the time he had appointed two Republicans and two Democrats, but it turned out that Forsythe had become a third party man and was no longer a Democrat, and upon affidavit of Dutton & Co. Judge Howard, after hearing of arguments of counsel, removed Forsythe and appointed a Democrat.

Forsythe, when he changed his politics, should have done like Frank L. Baehm of St. Louis, who, having been appointed Republican Judge, changed his politics and wrote to the one having appointing power saying he had decided to affiliate with the Democratic party, and asked that he remove him and appoint a Republican.

A Desirable Standard.

"The Republican platform pledges the Republican party to get rid of the gold standard, and to substitute the double standard just as soon as other nations will let us. We insist that if the gold standard is a good thing we ought to maintain it, not temporarily, but permanently. If the gold standard is desirable the American people ought to be allowed to have it, not for a year or four years, but forever, and if the gold standard is so bad that we ought to ask other nations to help us to get rid of it, then it is so bad that we ought to get rid of it whether other nations will help us or not."—W. J. Bryan.

Simon Holleran, an aged resident of this county and town for many years died at his home on Willow Street on Friday. His funeral services were held at St. Patrick's Church on Sunday morning, after which the remains were laid to rest in St. Thomas' Cemetery.

Fads in Medicine.

There are fads in medicine as in everything else and a "new thing" frequently sells for a time simply because it is new. But in medicine as in nothing else, the people demand and will be satisfied only with positive, absolute merit. The fact that Hood's Sarsaparilla has stood its ground against all competition, and its sales have never wavered, but have remained steadily at the top, demonstrates, beyond any doubt, the intrinsic virtues of this medicine. The new things have come and gone but Hood's Sarsaparilla rests upon the solid foundation of absolute merit and its power to cure, and its sales continue to be the largest in the world.

The cloak opening on Saturday at Grubbs & Hazlett's was largely attended. The firm can fill orders for any pattern on exhibition.

We regret to announce that Thos. F. Hargis, of Louisville, has canceled his engagement to speak here this afternoon.

On Monday, May 27, 1878, at North Bend, Ind., John Scott Harrison, the venerable father of ex-President Benjamin Harrison, died. The burial was on Wednesday. Soon after the burial the discovery was made that the grave had been robbed. The body had been stolen. Investigation followed. The body was found suspended in the Ohio Medical College in Cincinnati. All hope of detecting the perpetrator of such an act was, after long search, abandoned. Recently in Bellevue Hospital, New York, a death-bed confession revealed the man who was so depraved as to disturb the remains of one who had fallen asleep. The name of the grave-rober is Carabonne Torriani. For many years he has followed this business, it was while robbing a grave that he contracted blood poisoning which resulted in his death.

DEMOCRATIC RALLIES

In the Several Precincts of
Montgomery County.

At the following times and places there will be held rallies of the Democratic voters of the precincts of Montgomery county. All Democrats and believers in the free coinage of silver should attend and make each occasion as notable one and productive of good results for the Democratic nominees, Bryan and Sewall, the champions of the people's cause:

Harris, (Bridge School House), Tuesday night, October 13.

Jeffersonville, Thursday night, October 15.

Spencer Station, Saturday night, October 17.

Levee, Tuesday night, October 20.

Camargo, Thursday night, October 22.

Aaron's Run, Saturday night, October 24.

Good speakers will be present on each occasion.

Louisville Tobacco Market.

Sales on our market for the week just closed amount to 2947 bbls. with receipts for the same period 1923 bbls. Sales on our market since January 1, amount to 138,180 bbls. Sales of the crop of 1895 on our market to this date amount to 133,119 bbls. prices.

The offerings of burley tobacco this week have been very poor in quality. The good to fine grades and the medium class are in good condition have sold fully up to prices current for some time past, but all other sorts were irregular and easier until Friday when the market was active and prices somewhat better for these latter grades. There has been a few bbls of new burley sold this week the quality of which has been poor and prices low.

The following quotations fairly represent our market for burley tobacco 1895 crop.

Trash. (Dark or damaged tobacco) \$1.00 to \$1.50.
Common colory trash, \$2.00 to \$3.50.
Medium to good colory trash, \$3.50 to \$5.00.
Common lugs, not colory, \$2.00 to \$3.00.
Common colory lugs, \$4.00 to \$6.00.
Medium to good colory lugs, \$6.00 to \$8.00.
Common to medium leaf \$5.00 to \$7.00.

Medium to good leaf, \$7.00 to \$12.00.
Good to fine leaf, \$12.00 to \$15.00.
Select wrappers leaf, \$15 to \$26.00.
The above quotations are not applicable to green and frosted crops.

GLOVER & DURETT.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist church at River Junction she was brought down with pneumonia succeding La Grippe. Terrible paroxysms of coughing would last hours, with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles sent at Wm. S. Lloyd's Drug Store. Regular size 50 cents and \$1.00.

Wonderful.

The long distance telephone conveyed to hundreds of men in distant cities the enthusiastic shouts of Wm. J. Bryan's friends in Chicago, on Friday. The editors and employees of the Louisville papers could hear the tramp of men in the procession. The strain of "The Star Spangled Banner" were distinctly heard; cheering, wild and tumultuous, was heard as if near by. "Hurrah for Bryan! Three cheers for the workman's friend," etc., and the music of passing bands made Louisville people feel like they were in Chicago.

Dr. Robert N. Barrett, Baptist pastor at Ashland, delivered an illustrated lecture at the Baptist church last Friday evening, subject, "Japan." Dr. Barrett is an authority of no mean reputation. His two principle works are "The Child of the Ganges" and "The Land of the Sunrise." Whenever a lecturer comes into our midst to tell of foreign lands, their people, customs, etc., we should attend, for such lectures are usually interesting and instructive.

Marvelous!

The results attained right here at home have been marvelous. Hundreds of your neighbors who have used Wright's Cerebral Capsules say they cure Kidney, Liver and Stomach trouble, Rheumatism, Constipation and Sick Headaches. Why pay \$1 every two weeks for a bottle of medicine when you can get treatment at 1 cent a day. Wright's Cerebral Capsules give 100 days of treatment for \$1.00 backed by a bank, to cure you or refund your money. Sold by W. S. Lloyd Drugist. 43-rt.

Lost.

On last Saturday evening on the pike between Camargo and Mt. Sterling, R. S. Stokely, of Jeffersonville, lost a pocket book containing \$36. A liberal reward will be paid for its recovery.

I have discharged Spencer Johnson as superintendent of my blacksmith and repair shop. He is unauthorized to collect any of the accounts and the public is notified not to pay any accounts.

STARTLING

THE ADMISSION FROM A PREJUDICED ORGAN.

New York Herald's Table a Virtual Admission of Bryan's Election—Got Seven States Wrong, However.

The New York Herald of Sunday, Oct. 4th, published some figures on the probable Presidential result that have filled the McKinley supporters with alarm. The Herald has strongly opposed Bryan, and would certainly not accord to him more than the indications warranted. While the figures indicate McKinley's election by a narrow margin, the result is reached by giving the Canton man states that he has little or no chance of carrying. Really, it is a confession that Bryan's election is not only probable but, almost sure. In other words, McKinley, according to the Herald, is gone if he loses Indiana or Illinois, and even granting him liberal concessions, besides these two states, he will have to win in Kentucky to have more than one majority.

To reach this result the Herald also credits McKinley the votes of Connecticut, Delaware, Iowa, Maryland, Minnesota, New Jersey, New York, and Wisconsin, either one of which may give the Republicans an unpleasant surprise and prove fatal to their calculations. Those on the inside of Bryan's campaign have no doubt of carrying California, Colorado, Idaho, Kansas, Michigan, Montana, Nebraska, Nevada, North Dakota, Utah, Washington, West Virginia and Wyoming, and the Herald's canvas shows that these claims are well based.—The Argonaut.

To Paint Frost Tinted Foliage.

To paint a group of leaves just touched by the frost is not easy, but the variety of coloring in them is beautiful, the reddish tints in them being especially effective. For the leaves turned yellow at the edges, mix yellow ochre with white. For the pale green tints toward the center add to pale lemon yellow some ivory black; glaze here and there with raw sienna. A gray green can be made with yellow ochre, cobalt blue and white, and raw umber in the shadows. A rich green can be made with light cadmium and indigo. For a brighter green substitute Prussian blue for the indigo. For the reddish tints crimson make slightly modified with raw umber is good, while burnt sienna gives the rich, bright brown tone into which the crimson generally merges. When the greens are too bright in parts glaze them with ivory black. When too gray glaze with raw or burnt sienna, according to the tone desired.—Ladies' Home Journal.

Deaths.

Miss Margaret Alexander, daughter of George B. Alexander, of Bourbon, died at Macon, Ga., of typhoid fever. Funeral was held at Paris, on last Saturday.

Edward Breen, who during a political difficulty in Fleming county was stabbed by Robert McDonald, died on Thursday.

George Talbot, of Cynthiana, uncle of Mrs. Wm. A. Durham, died on Saturday, Oct. 10. Buried on Monday. Mr. and Mrs. Durham attended the funeral.

In the early hours of Friday morning near Noblesville, Indiana, Albert Bray, a farmer, killed his wife, two children, Carl, aged 9, and Edna, aged 2 years, and himself. An axe and razor were used. It is said that financial troubles and sickness in his family for some months had affected his mind.

The Richmond, Nicholasville, Irvine & Beattyville railroad was not sold at Versailles on Saturday. The U. S. Court at Louisville granted an extension. The Reorganization Committee hope soon to reach an agreement with stockholders and bondholders.

TRUTH NOT IN THEM.

Metropolitan Papers Pander to the Goldbugs.

With But Few Exceptions the Big Values Have Been Choked Into Declaring for Mark Hanna and the Gold Standard.

National Democratic and Silver Headquarters, Chicago, Sept. 16, 1896.—For the first time in the history of the United States the greedy hand of the usurer is at the throat of the press. With a few courageous and honorable exceptions, the metropolitan papers have been choked into a declaration for Mark Hanna and the gold standard. Their columns are filled with sophistry, with evasion, and with lies.

At the dictation of the banks which own mortgages on their plants, and therefore on their souls, these newspaper have hoisted the American flag in behalf of monopoly, and beneath its sacred folds charge the patriotic majority of the American people with repudiation, dishonesty and anarchy. The truth is not in them. At the command of the bureaucracy they do not hesitate to stultify their honest declaration of an honorable past. They suppress all news calculated to enable the people render a fair decision at the November election. There are two sides to the money question, but they dare not present even their own side—or rather that of their owners and masters—and present it fairly.

Mark Hanna does not own or control this paper. Wall street controls, with a few exceptions, the great newspapers of New York, Boston, Philadelphia, Chicago and other centers of population and wealth, but there is as yet no power in organized monopoly which can entirely suppress the publication of truth. Thanks to the independent and fearless of the smaller cities, there are yet citadels from which shot and shell can be poured into the ranks of the usurers who now aspire to political supremacy.

It will be the province of this paper to tell the truth. The truth is good enough in this campaign. If the American people can become acquainted with the undisputed facts, Wall street will not carry a county in the United States. No statement will be given publicly until it has been thoroughly investigated and its accuracy established. Nothing will be suppressed. Things will be called by their right names. If a man steals he is a thief. If he utters an untruth he is a liar. If he indulges in cant he is a hypocrite.

It is time for plain talking. With an audacity unparalleled a clique of gold lenders is attempting to forever bind the hands of the American people, and to embolden by past triumphs, with an appetite whetted by successive raids on the United States treasury, they have thrown discretion to the winds and are fighting in the open.

Hanna, the unspeakable Hanna, has come out from behind the screen and is commander in chief. He of his possession William McKinley's notes for a large amount and proposes to collect them, by grace of the voters of the United States. Who is helping him? Payne, of Milwaukee—Payne, the avowed enemy of labor; Payne, the man in whose outraged citizens of Milwaukee planned a boycott and walked for weeks rather than ride in his street cars. Who else is on Hanna's staff? Yes, the editor of Chicago; H. C. Frick, of Homestead; Thurston, of Omaha, the senatorial lobbyist of the Union Pacific road. Every man who ever plundered labor or evicted a workman is arrayed on the side of Hanna and an English gold standard.

McKINLEY QUOTED.

Bryan Tells What He Said in a Speech in 1891.

Mr. Bryan in a recent speech, said: "And in 1891, on the 17th of February, in Memorial hall, at Toledo, O., at the Lincoln day banquet, the present candidate for president upon the republican ticket, used the words which I shall now read to you. I have found these words published in a Toledo paper, and they have been published so long without correction that we may safely assume that he was correctly reported."

"These are the words which he is said to have used: 'During all of Grover Cleveland's years at the head of the government he was dishonoring one of our precious metals, one of our great producers, dishonoring silver and enhancing the price of gold. He endeavored even before his inauguration to stop the coinage of silver dollars, and afterward, at the end of his administration, persistently used his power to that end. He was determined to contract the circulating medium and demoralize one of the coins of commerce, limit the volume of money among the people, make money scarce and thereby drive the would have increased the value of everything else—the money master, everything else the servant.'"

"Following these same lines the republican convention in 1892 declared at Minneapolis that the American people from tradition and interest were in favor of bimetalism. That is the language of 1892—that the American people from tradition and interest are in favor of bimetalism. Have traditions changed in four years? No, my friends, and yet, forgetting the platform of 1892, forgetting the platform of 1893, forgetting the platform of 1894, the republican party in convention assembled declared that the American people must follow the ad-

PROVING THE CRIME.

How Silver Demoralization Has Destroyed American Industries.

American Farmers and Producers Legally Robbed for the Benefit of European Shylocks—Victims of British Influence.

The following facts and the legitimate deductions drawn from them are worth the careful consideration of every farmer, laborer, mechanic and thoughtful citizen.

Silver in 1873 was worth \$1.25 per ounce, caused by French mints being open to coinage at \$1.25. The par value at sixteen to one was then \$20.00.

Silver in 1890 is worth 66 cents per ounce, caused by closing the mints to coinage for the public.

How It Affects the Farmer. How this decline in the value of silver affects the farmer may be shown by taking wheat as an illustration. A bushel of wheat was worth in India in 1871 one ounce of silver, or \$1.25. In 1890 the bushel of wheat was still worth one ounce of silver, but the ounce of silver, through operations of the shylocks, was worth only 66 cents. The following comparison puts the matter more clearly and shows the extraordinary decline in prices:

Cost in India.	100.
Ocean freight and charges.	2.50
1.47 Selling price in Liverpool.	21
Pr't and charges from Chicago.	24
1.15 Price in Chicago.	67
Freight and charges from Iowa.	18
56 Price in Iowa.	42

As all our exports to Europe are sold in competition with silver-using countries, the decline in prices, it is estimated, makes a difference in the value of American products of nearly that \$1,000,000,000 (one thousand million) annually. The American farmer and miner loses that sum.

The European manufacturer and tradesman gain that sum.

They cannot get food products and raw materials for manufacture at half price if they cannot get silver at half price. They cannot compete with American manufacturers in the markets of the world and thus lose that advantage. We are selling all products that are in competition with silver-using countries on the silver basis of India, and thus the price here for all of such products.

We are taking European goods in exchange for our products on the gold basis of Europe, and that equally applies to all prices here, except as modified by our tariff.

This policy cannot be long continued without impoverishing American farmers and destroying the value of their property. It will force them to the plantations of India and expenditure as the people with whom they must compete.

Remember the Kennedy. With silver coinage restored, not only will every coined dollar be the equivalent of gold, but the price of every ounce of silver bullion and of every ounce of silver coinage, and every product will be advanced in proportion.

The United States is now the chief producer of silver, and is in position to restore silver coinage, and thereby restore prices as in 1872.

English influence and English necessity secured demonetization in 1873. English influence for England's advantage has maintained it until the present time.

Give back to our farmers and miners the \$1,000,000,000 a year and it will make a market for our factories and give employment at good prices for our mechanics and laborers.

Common justice demands that the legal robbery of \$1,000,000,000 a year for the benefit of this and other governments shall cease. And while such robbery begins with the miner, it immediately involves every citizen's wealth-producing in the United States.

No factory is ever closed when it can sell its products at a profit.

You cannot start factories by destroying the purchasing power of more than half the people.

Gold Standard Destructive. If consumers cannot buy at present they surely cannot if the prices of manufactured goods are to be advanced by a higher tariff.

A continuing state of the gold standard means—and it can mean nothing else—yet lower prices; yet more suffering. Wall street represents England. Banks everywhere are under the dictation of Wall street. They have assisted to establish the ruinous policy and are helping to maintain it.

It means destruction to the American industry. But the people are beginning to see how they have been robbed and footed and crushed. The day of deliverance is near at hand.

A Firm Stand for Silver. The popular colored cartoon paper, Up-to-Date, which has heretofore been neutral politically, in its present issue announced to the world its purpose to hereafter give its pages heartily to the cause of Bryan and bimetalism. This endorsement of the silver party is of much importance, since Up-to-Date is a high-class periodical, ably edited, and has a circulation of over 100,000, exclusive of the colored part of the country. Being conducted and edited by western energy and brains it will no doubt prove a worthy competitor of the eastern goldbug cartoon papers, its present circulation being greater than that of any other cartoon paper in the United States. In the cause of American financial independence and the election of Bryan it will certainly prove a power and a vote winner.

Steel vs. Cast Iron.

Steel has succeeded iron in all structural work where the greatest strength and durability are required. The old-fashioned cast-iron stove has made way for the

Majestic Range

which is made of cold-rolled steel (the strongest steel) and malleable iron (iron that by an expensive process, is made unbreakable), and the whole construction is riveted by hand (the honest way).

The Majestic is built on honor to last the user a lifetime—a long lifetime.

The tax-payers of the county belong to different political parties, all of whom have an interest in our public buildings—court house, jail and poor house. Neither party should claim nor have a monopoly of occupancy thereof. At times of such political interest or excitement when every man wants to vote, there are few, if any, party leaders who wish their followers to occupy the jail or poor house. Can we say this much concerning the court house, which, by custom, is used for public speaking? We think there should be a fair division of its use by the parties. A consideration of the rights and interests of all require this.

There need be no conflict if party leaders and those in charge of the court room will do what is right. We trust that the gentlemen who lead in these matters will arrange their schedules and hours for speaking that all who wish to speak will have an opportunity, and that there will be no unpleasant controversies, which tend to alienation of friendship. There is liable to be some conflicts of dates, yet as far as possible appointments should be made, not with the intention of shutting out the other side, but of doing to others as we would have others do to us. Let fairness prevail. Keep cool, gentlemen, and do not brand as revolutionaries, thieves, villains and anarchists sincere and honest men who do not vote as you do.

Bronston Defeated!

In the recalled Congressional Convention at Frankfort last week Hon. Owen Settles, of Owen county received the nomination, thus defeating Messrs Bronston and Corroll. We hope he will now defeat the candidate representing the Republicans and other advocates of the English financial policy.

Public Speaking.

Hon. C. P. Chenault, Chairman of Democratic Campaign Committee for the Tenth Congressional District announces the following appointments of Democratic speakers who will stump the District in the interest of Bryan and Sewall and Fitzpatrick:

HON. JOHN E. GARNER.

October 14th, Pikeville, Pike county.

October 15th, Williamson, W. Va., Kentucky and Virginia line.

HON. C. X. BOWLING.
Oct. 25th, Jackson, Breathitt Co.

JUDGE JOHN E. COOPER AND HON. H. M. WOODFORD.

Oct. 15th, Flat Gap, Johnson Co.
Oct. 16th, Paintsville, Johnson Co.
Oct. 17th, Prestonsburg, Floyd Co.
Oct. 19th, Pikeville, Pike Co.
Oct. 20th, Pikeville, Pike Co.
Oct. 21st, Virgie, Pike Co.
Oct. 22nd, Hindman, Knott Co.
Oct. 24th, Salyersville, Magoffin Co.
Oct. 26th, Campton, Wolfe Co.
Oct. 27th, Maytown, Wayne Co.
Oct. 29th, Jackson, Breathitt Co.
Oct. 30th, Stanton, Powell Co.
Oct. 31st, Mt. Sterling.
Nov. 2nd, Winchester.

HON. ROBERT FRANKLIN.
Oct. 6th, Stanton, Powell Co.
Oct. 6th, Clay City, Powell Co.

All speaking begins at 1 o'clock.

The desire and effort of some Republicans to divert the thoughts of the voters of this country to the tariff question has fallen very flat. The issue before the American people is, shall silver be restored to its position prior to 1873. Much helpful information is found under "Coinage Laws of the United States by Presidential Administrations," in another column.

The contract has been let for the new Commercial Hotel at Harrodsburg. The building will be a four-story, with towers on each corner, water power elevator, work shops, electric lights, electric bell system, telephone and other modern conveniences.

Two Propositions.

"Say, my friends, I submit these two propositions which I have repeated, time and again, that if the gold standard is a good thing, then we ought to have it, but it is a bad thing, as the Republican platform expressly declares in promising to substitute something better for it, then, my friends, we ought to abandon it at once, whether other nations like it or not, whether they help us to abandon it or not. I want you to remember that we who advocate coinage at 16 to 1 are the only people who have a financial system that is willing to prevail, that there can be found men who ordinarily would desire to be regarded as intelligent and refined who so far forget themselves and the proprieties which should exist between men, that they will endeavor to hiss and howl down or carry out men who advocate views in political questions at variance with their own. We are aware of the fact that unless there is a high regard for truth, editors and reporters for papers, judges like other men, will often give exaggerated, distorted and untrue reports of occurrences.

Making due allowance for partisan prejudice, which characterizes many utterances, we must again insist that if Democrats are not pleased with what is being said let them either withdraw from public assembly, or remaining, treat with proper courtesy the man who speaks. See same applies to men of all political parties. Discretion should always be manifest, yet we admit the speaker who devoted to what is just and right and pure, has enough courage to condemn the wrong, even when surrounded by men whose impurity, raceably or falsehood he assails.

We have seen the article written by the Salyersville reporter for the Courier-Journal. While we do not know the facts of the speaking, interruption of court engagements, and conditions of the speakers, yet we wish to say that such disturbances will be used for political effect against the party accused of bringing on the trouble. Even in a town as small as Salyersville there could be speaking in different places at the same time or at same place at different hours of same day, if political parties are considerate of the rights of each other.

Died, Oct. 5th, at his home near Pilot View, Clark County, of congestive pneumonia, Mrs. Frances Hunt, in the eighty-eighth year of her age. She had eight children, all of whom survive her: S. P. Hunt, of this city; Mrs. James H. Haggard, Mrs. James J. Gilbert, J. D. Hunt, J. W. Hunt, G. W. Hunt, Mrs. W. D. Strode and Mrs. Kate Hunt, of Clark.

The funeral services were conducted by Rev. Wm. E. Haggard, assisted by Messrs. Bailey and French. For sixty-six years Mrs. Hunt had been a devoted member of the Old Baptist Church and for years past her membership had been with her beloved people at Goshen, Clark county.

An eulogy that we could offer to the memory of this noble, grand woman would be out of place, when she will always live in the hearts of those who knew her as having been first among women and first in all good deeds in the fields of work to which her Master called her. For 11 years since her beloved husband had been taken away she had been waiting and watching for him; and what more beautiful ending to this life could there have been than that quiet day when the shadows of evening had just fallen, around her beloved home, that the messenger of death came in answer to her dying prayer, "Come, Lord Jesus, come quickly," and bore her away as a babe asleep to the realms where her pure, white soul will have everlasting peace.

A large concourse of people, together with her children, grand-children and great-grandchildren followed her remains to their last resting place, the family burying ground.

When Baby was Sick, we gave her Castoria.
When she became a Child, we gave her Castoria.
When she became a Woman, she clung to Castoria.
When she had Children, she gave them Castoria.

T. J. Bigstaff has returned from Salyersville, Magoffin county, where he has been attending court. Mr. Bigstaff informs us that Magoffin county is almost solid for the silver metal, and that there is little showing for any candidate who does not favor bimetalism. The report that Col. Wood was not permitted to speak is a canard.

Children Cry for Fletcher's Castoria.
A Dandy Windmill. Make it Your self.
I have a neighbor that made one of the People's Windmills, and I have been watching it closely; it is the best mill I have ever seen and anyone can make one for less than \$10. I am going to make two immediately and don't see why every farmer cannot have a windmill when he can make it himself for so little money. The mill is durable, powerful and runs easily. Any person can get diagrams and complete directions by sending 10-cent stamps to E. D. WILSON & CO., Allegheny, Pa., and any active man can undoubtedly make money anywhere putting these mills up for others, and I see no use of paying \$50 or \$60 for a mill when you can make one just as good for \$10.

On Wednesday, 14th inst., at Church of the Advent in Cynthia, Mr. Henry Oxley and Miss Gertrude W. Victor, both of Cynthia, will be married. There will be 9 bridesmaids. Miss Mary Lillie Stephens, of this place, will be one of them. The wedding will be an elegant affair and will be followed by a reception at the bride's home. The happy couple will take a trip to eastern cities.

Wm. A. Boynton, cashier of the defunct Franklin (Ohio) National Bank was on Saturday taken to Ohio State prison for a term of five years. He was indicted on nine counts. He plead not guilty, but afterwards changed his mind and plead guilty on one count. His sentence was the lowest penalty that could be given. Of course his downfall was a great surprise to his friends. He had lived in luxury, purchased houses and had interests in silver mines and was one of the "pillars of the church." "The love of money is the root of all evil."

Dr. Johnston began on his third pastoral year at Grassy Lick church, last Sunday, and preached two most excellent sermons. His congregation gave him a warm welcome.

Judge Day, M. C. Tyler and A. A. Hazelrigg, of your city, each made rousing campaign speeches at Grassy Lick last Thursday night.

Seems as if all the things we like disagree with us, and all the things we don't like agree with us. Dyspepsia lurks in most of the good things we eat, and indigestion follows the gratification of appetite. Of course it isn't nature's fault. Nature does the best she can, and if a man will only help her a little bit at the right time, he may eat what he likes and as much as he likes. Dr. Pierce's Pleasant Pellets are for people who are troubled with indigestion. Particularly for those in whom it manifests itself in the form of constipation. The "Pellets" are easy and quick in their action. They are in perfect harmony with nature. They effect a permanent cure. You need take them regularly only a little while. After that, use them occasionally when you need them—when you have eaten anything that disagrees with you. They may be taken just as freely as you would take water or any other necessity of life. Once used they are always in favor.

Letter From Captain Thomas.

LETTERS KENTUCKIAN-CITIZEN:
I heard Bryan in Cincinnati Friday night. The streets were packed and jammed for squares and all standing, sitting and climbing room in Moulton Hall was wedged tight. The face of the man indicates sobriety and determination. His speech is open and honest, his delivery impressive, studied and calm. There is no need to read his lips. He does not change his verbiage. He is just as it should be printed. His statements need no amplification. He is thoroughly conversant with Scripture and has evidently studied the Christ-method. Perhaps this is why the common people hear him gladly." He is thoroughly conversant with the writings of Jefferson and actions of Jackson.

He is grounded on the first principles of Democracy and Republic Government. His statements carry conviction. He takes his audience. It would be difficult for one unprejudiced to hear him and not go with him. The Equivocal said next morning his speech was worth 5,000 votes to his ticket. I do not doubt it from the expressions I heard that night and next day. I heard laboring men say "the laboring man that don't vote for that man is no man at all." His statement that when the farmer does not thrive no trade can thrive, that you can't run mills unless you have people to work them and pay for the goods manufactured, that the same principle is involved in independent business as in concurrent bimetallism are non-refutable.

There is a sentiment of mercy about a man and his cause. What and if a man get back a silver dollar when he expected a gold one? Is it not better that one member suffer than that the body be destroyed? Who can better afford to sacrifice something than the men who have most? I feel great confidence that should Mr. Bryan be elected he will be a faithful executor of the laws and I feel like there is enough of honest independence, human sympathy and wise considerations to put this stainless man with a heart as big as his country in the Presidential office. J. M. THOMAS.

Gray Hair Made Dark.

I saw in your paper a statement that Zulu Vuller would restore any head of hair to natural color in three weeks. As I was very gray I sent for a sample package, and in less than three weeks my hair was restored to natural color. My wife's hair was a light red, and by using Zulu Vuller, her hair is now a beautiful auburn. Anyone can get a sample package of Zulu Vuller by sending 21 two-cent stamps to Wilson & Co., New Concord, Ohio, and if it does not restore the hair to natural color in three weeks they will return your stamps; it not only restores the hair to natural color, but will stop the hair falling out immediately and is one of the best hair tonics made, and you take no risk, and if it does not satisfy you perfectly, they will return your stamps.

Rev. J. H. Scott, of color, who has been a citizen of this county for the past three years and preached in all parts of this section, has accepted a call to the Pleasant Hour Baptist church, Mt. Sterling, and with his wife leaves to-day for his new field of labor. Mr. Scott and his wife are among the most exemplary colored citizens of this community, and the people of Mt. Sterling will find them worthy. Mr. Scott has had charge of the Daysboro church for three years, during which time he has increased the interest in the Lord's work, organized a large Sunday school and rendered satisfaction in all things. He has lived in our town for the past year, and by his gentlemanly deportment and consistent christian life, won the esteem of all, and we commend him to the citizens of his new field, believing he will prove worthy in all things.—Hazel Green Herald.

HON. C. T. CALDWELL.

Of Parkersburg, W. Va. Recommends Wright's Celery Capsules.

Parkersburg, W. Va., Jan. 26, '95.
THE WRIGHT MED. CO.,
Columbus, Ohio.

Gentlemen:—I have been using Wright's Celery Capsules since Nov., 1894, and find them to be as recommended. I first began taking them while at Hot Springs, Ark., under treatment for Sciatic Rheumatism. Liver, stomach trouble and constipation with which I had been a long sufferer. I found the Celery Capsules gave me great relief from the beginning and have used them ever since. With pleasure, and unhesitatingly, I recommend them to any and all suffering with like afflictions or either of them. Very truly yours,
CHARLES T. CALDWELL.

That Wonderful Churn.

I want to add my testimony to the list of those that have used the Lightning Churn. It does all that is claimed for it, you can churn easily in one minute, and get a large percentage more butter than with the common churns. I never took the agency for anything before, but so many of my neighbors wanted churns, that I ordered 20 and they are all gone. I think in a year every farmer will have a Lightning Churn, in fact they can't afford to be without one as they make so much more butter, and a good little bit of money can be made in every town selling these churns. By writing to J. F. Casey & Co., St. Louis, Mo., you can get circulars and full particulars about the churn.

Resolutions Adopted by the Epworth League, M. E. Church South.

Mt. Sterling, Ky., Sept. 27, 1896.
WHEREAS, in the exercise of the Episcopal authority vested in him, the presiding bishop of our recent Kentucky Annual Conference has removed our much beloved pastor, Brother C. J. Nugent and his family, we as a league desire hereby to express our deep regret in disavowing the pastoral relations with them which have been so pleasant and profitable to us during the two years of Brother Nugent's pastorate. As he goes from us we assure him of our abiding love for him and our sincere appreciation of all his labors for us, and with us, in our young people's work especially; and we pledge him that our prayers shall follow him in his new field of labor.

For our dear Sister Nugent, who has been so intimately and earnestly blended with us in every work of the young people and especially in our League Department, we can only say, our dear sister, we truly feel that our words cannot express. For two years she has been alive and everywhere in our work, so zealous, ready and efficient, we feel that her place cannot be filled in our circle. Upon her we have relied and her ready responsiveness, with a tact and force always equal to any emergency of condition we feel has been under God peculiarly, the occasion of anything, and all that may have been accomplished by our League work. Truly our hearts go with her as with none other of our whole band. We deeply realize how we shall miss her cheer, counsel and presence, but we shall pray that her mantle may fall upon someone that may alleviate at least our sorrow in her loss. Our love, our sympathy and most earnest prayers shall be for you always and wherever you go.

For our brother Clarence who, as one of our few male members, has been so closely allied with us, in all of our Society work and the association of our circle; whose presence at every meeting has always been assuring and helpful and his cheerful co-operation, always hearty and efficient, we bid you now a tender good-bye and pray "God be with you 'til we meet again."

Signed,

PLANET'S YEAR IS OUR DAY.

Mercury and Venus Revolve But Once in Traveling Around the Sun.

Boston, Oct. 7.—The astronomers at Lowell Observatory have discovered that the planets Mercury and Venus each turn on its axis during one revolution about the sun, making the day just equal to the year on the planet. They find further that Venus is not cloud-covered, as has been supposed, "but has about it a thick atmosphere while Mercury has none."

An Answer to Woman Suffrage Questions.

[Susan B. Anthony.]

First. What are the fundamental principles, succinctly stated, upon which it is claimed our women ought to have the right to vote?

The same exactly upon which man bases his right of suffrage; the one for which Martin Luther fought, the right of private judgment; the right of self-government and individual sovereignty; the principle that "governments derive their just powers from the consent of the governed;" that taxation and representation are inseparable; the assertion of Abraham Lincoln that "no man is good enough to govern another without his consent;" that this should be a government of the whole people and not of half the people.

The difficulty with those who ask such questions as this, is that they fail to recognize in woman an individual entity, but look upon her as a subordinate part of man. Woman is always thought of, spoken of, and legislated for simply as an adjunct to man. In this whole question of the suffrage the relation of the woman to the society, the husband, the family, to her, is freely considered, while there is never a thought as to its effects upon the woman herself as an individual.

Second. What are the evils, if any, suffered by women by reason of their not having such a right?

Disfranchisement is ever and always degradation. In this country men are disfranchised only for cause, and this cause is always attended with humiliation. If women do not feel the degradation of disfranchisement, then this very fact is one of the most prominent of the evils: to make for the levelling and the spending of taxes; to deny her the right of voice in the laws or of selecting the law-makers or the officials who are to enforce the law; to refuse her any participation in municipal government, in questions relating to the schools, or in deciding the environment of her family; to hold her responsible for the conduct of grown-up children and forbid her all power to remove temptation from their path; to place the community at a fit way or to make the community a fit place for them, as she made the home. In the world of wage-earners woman's disfranchisement forces her into subordination as a man and does it equally as well.

Loose clothes and downy cushions bring only a negative sort of comfort to the woman who is suffering from some disease or derangement of the organs distinctly feminine. Some clothes and some positions make the pain and discomfort more acute. Nothing will ever completely relieve but a radical cure. The effects of such disorders are not limited to mere local distress. They extend over the whole body. Perhaps the nerves are most affected, and this in turn disturbs the digestion. After that there is no telling what form the trouble may take. With irritable nerves and poor digestion a woman is on the straight road to the grave. Women are notoriously negligent in matters pertaining to their health. Too many of them understand too little about their own physical make-up. They do not understand their possibilities or their limitations, and they do not know enough about the hygiene measures women should take to guard against the onset of danger signals. The start of everything is simple. The start of so-called "female complaints" may be a very slight thing indeed. It may be that in the beginning some simple hygienic measures would do the trouble. Certainly at this time, a little bit of the right medicine would stop it. When the trouble becomes worse, it is harder to cure, but still it can be cured. Dr. Pierce's Favorite Prescription will positively cure any trouble of this character. It may be absolutely relied upon. It affords immediate and lasting relief to a woman whose natural modesty has kept her from consulting a physician.

The whole story of the "Favorite Prescription" and what it has done for thousands of women is told in Dr. Pierce's Common Sense Medical Advice. It is a book of 100 pages, profusely illustrated, written in plain language for the use of every-day people, and gives in a clear and lucid way an immense amount of valuable information about health and medicine. It will be sent free on receipt of 21 one-cent stamps to cover cost of mailing only. Address: World's Dispensary Medical Association, Buffalo, N. Y.

ordinate places at inferior wages; or if permitted to occupy as high a position where she does the same work it compels her to accept less pay for it.

Third. What are the evils, if any, suffered by men by reason of women not having such a right?

It is not good for men to associate with them. It develops in them the traits of the autocrat; it fosters their self-esteem and cannot fail to make them more or less tyrannical and overbearing. Women, in a similar position, would be no better. It requires a perfect equality between men and women to develop the strongest and best characteristics of both. Man thinks that woman can more successfully lead him to nobler things while she is subordinate. We know that when woman is given her proper freedom we will have a grander race of men than the world yet has seen.

Marry This Girl, Somebody!

I have been reading in your paper about several men and women that have been very successful selling self-heating flat irons, and I concluded I would see what a girl could do. I have worked 12 days and have sold 150 irons and have 218 dollars left after paying all expenses. Everybody is delighted with the iron and I sell one almost every place I show it, as people think they cannot afford to do without one, as they save so much fuel and time and do not burn the clothes. I know I can clear five thousand dollars in a year. How is that for a girl? A GRADUATE.

Splendid, my girl, splendid, you are a true American girl. Anyone can get complete information about this self-heating iron by addressing J. F. CASEY & CO., St. Louis, Mo. It seems to be a winner, as everybody selling it writes in its praise.

Daring Bank Robbers and Murderers on Bicycles

Rush into the little town of Sherburne, Minn., on Wednesday, Oct. 7, enter the bank, shot the cashier through the head and a representative of the Walter A. Wood Harvester company through the heart, steal about \$1,000, mount their wheels and escape. The robbers were closely pursued, a marshal was killed by one of them and after being wounded by one of the posse, killed himself.

COINAGE LAWS

Of the United States by Presidential Administrations.

1789 to 1797, George Washington, President.—The first act passed relating to coinage was the act of April 2, 1792. It was prepared by Alexander Hamilton, endorsed by Thomas Jefferson, approved by George Washington, and provided for the free and unlimited coinage of gold and silver at the ratio of 15 parts of silver to 1 of gold.—Coinage Laws of the United States, page 4.

1797 to 1801, John Adams, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 15 to 1.

Hamilton, in his report to Congress, 1791, recommended that the unit of value should rest on both metals, and gave as a reason that "To annul the use of either of the metals as money is to abridge the quantity of circulating medium, and is liable to all the objections which arise from a comparison of a full, with the evils of a scanty circulation."

With free coinage of gold and silver the wealth of the United States increased between 1790 and 1800, 72 per cent, while the population increased 35 per cent.

1801 to 1809, Thomas Jefferson, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 15 to 1.

Jefferson wrote to Hamilton, February, 1792: "I return you the report on the mint. I concur with you that the unit must stand on both metals."

With free coinage of gold and silver the wealth of the United States increased between 1800 and 1810, 40 per cent, while the population increased 36 per cent.

1809 to 1817, James Madison, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 16 to 1.

1817 to 1825, James Monroe, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 15 to 1.

"All intelligent writers upon currency agree that where it is decreasing in amount, poverty and misery must prevail. The correctness of this opinion is too manifest to require proof. The united voice of the nation attests its accuracy."—Wm. H. Crawford, Secretary of the Treasury, February 12, 1820.

With free coinage of gold and silver and notwithstanding the losses caused by the war of 1812, the wealth of the United States increased between 1810 and 1820, 25 per cent, while the population increased 33 per cent.

1825 to 1829, John Quincy Adams, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 15 to 1.

"The American dollar, of 371 1/2

grains of pure silver, is the unit of money and standard of value on which all public and private contracts are founded."—Albert Gallatin, December 21, 1829.

With free coinage of gold and silver the wealth of the United States increased between 1820 and 1830, 40 per cent, while the population increased 33 per cent.

1829 to 1837, Andrew Jackson, President.—The law provided for the free and unlimited coinage of gold and silver. The ratio of 15 to 1, established by the act of 1792, was changed to 16 to 1 by the act of June 28, 1834, which reduced the number of grains in a gold eagle.—Coinage Laws of the United States, page 15.

"The Constitution of the United States," said Jackson in his farewell address, "unquestionably intended to secure the people a circulating medium of gold and silver."

1837 to 1841, Martin Van Buren, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 16 to 1.

"My humble efforts," said Jackson in his farewell address, "have not been spared, during my administration of the Government, to restore the constitutional currency of gold and silver; and something, I trust, has been done towards the accomplishment of this most desirable object."

With free coinage of gold and silver the wealth of the United States increased between 1830 and 1840, 41 per cent, while the population increased 32 per cent.

1841 to 1845, Wm. Henry Harrison and John Tyler, Presidents.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 16 to 1.

"There is no safety for the national finances but in the constitutional medium of gold and silver."—Thomas H. Benton, December 14, 1836.

1845 to 1849, James K. Polk, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 16 to 1.

With free coinage of gold and silver the wealth of the United States increased between 1840 and 1850, 89 per cent, while the population increased 35 per cent.

1849 to 1853, Zachary Taylor and Millard Fillmore, Presidents.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 16 to 1.

1853 to 1857, Franklin Pierce, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 16 to 1.

"When contracts are made by a standard which is gradually contracting, the advantages are on the side of capital, as against labor, and productive energy is cramped by receiving less than a fair share of the profits of its enterprise."—R. M. T. Hunter, of Virginia, March 18, 1852.

That gold and silver are the real

standard of value is a cherished Democratic sentiment not now or hereafter to be abandoned.—Thomas A. Hendricks, 1878.

1857 to 1861, James Buchanan, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 16 to 1.

"Money, in the constitutional sense, means coins of gold and silver fabricated and stamped by authority of law as a measure of value, pursuant to the power vested in Congress by the Constitution."—Mr. Justice Clifford, of the Supreme Court, in *Knox vs. Lee and Parker Davis*, May 1, 1871.

With free coinage of gold and silver the wealth of the United States increased between 1850 and 1860, 126 per cent, while the population increased 35 per cent.

1861 to 1865, Abraham Lincoln, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 16 to 1.

"I believe gold and silver to be the money of the Constitution—indeed, the money of the American people anterior to the Constitution, with that great organic law recognized as quite independent of its own existence. No power was conferred on Congress to declare that either metal should not be money. Congress has, therefore, in my judgment, no power to demonetize silver any more than to demonetize gold; no power to demonetize either than to demonetize both."—James G. Blaine in the Senate, February 7, 1875; Congressional Record, vol. vii, Part 1, page 820.

There was no coinage of money. Gold—"the only honest money"—did not fight the battles of the civil war; it went into hiding or fled to Europe.

1865 to 1869, Andrew Johnson, President.—The law provided for the free and unlimited coinage of gold and silver at the ratio of 16 to 1, but only paper money circulated.

"By the experience of commercial nations in all ages, it has been found that gold and silver afford the only safe foundation for a monetary system."—Garfield, Inaugural Address, March 4, 1881.

Notwithstanding the great cost of the civil war, the wealth of the United States between 1860 and 1870 increased 61 per cent, while the population increased 22 per cent.

1869 to 1877, U. S. Grant, President.—The law providing for the free and unlimited coinage of gold and silver at the ratio of 16 to 1 was in force until the passage of the act of February 12, 1875, (Coinage Laws of the United States, page 36). This was an act of more than sixty sections for "revising and amending the laws relative to the Mint, assay offices and coinage of the United States, and was in 1874 incorporated into the Revised Statutes of the United States, page 444. The act of 1873 omitted the silver dollar from the list of coins and made the gold dollar the unit of value.

The silver dollar was demonetized. The single standard was substituted for the double standard; the unit, which, according to Jefferson, "must stand on both metals," was made to stand on one only, and one metal was required to do the work as money previously done by two. The passage of this law was the crime of 1873. Its effect was not known by those who voted for the bill.

This gigantic crime against the people was committed, as most heinous crimes are, secretly.

Electric Bitters.

Electric Bitters is a medicine suited to any season, but perhaps more generally needed when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from malarial poison. Headache, indigestion, Constipation, Dizziness yield to Electric Bitters. 50c. and \$1.00 per bottle at Wm. S. Lloyd's Drug Store.
